Jl. Pondok Sidokare Indah AI No. 11, Kec. Sidoarjo, Kota Sidoarjo, Jawa Timur 61214

Highly motivated Information Systems undergraduate at UPN “Veteran” Jawa Timur specializing in frontend web and mobile development. Experienced in building responsive user interfaces using React.js, TailwindCSS, and Kotlin, with a strong interest in AI-integrated applications. Proven ability to collaborate in agile teams and deliver technology-driven solutions through competitions and real-world projects.

EDUCATION

Universitas Pembangunan Nasional “Veteran” Jawa Timur - Surabaya, Indonesia Aug 2024 – Present
Bachelor of Information Systems

- Actively engaged in various organizations, developing leadership, teamwork, and problem-solving skills while contributing to impactful projects and initiatives.
- Demonstrated strong academic performance by actively participating in competitions and organizations, achieving notable accomplishments that reflect my commitment to continuous improvement and excellence.

SMA Negeri 2 Sidoarjo - Sidoarjo, Indonesia Jul 2021 - Jul 2024
High School Diploma in Mathematics and natural science, 87.75/100.00

- Achieved 3rd rank out of the entire graduating cohort (Parallel Ranking) with an outstanding final score of 87.75/100.00.
- Actively participated in student organizations and various academic competitions, demonstrating strong initiative and time-management skills.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Kotlin, HTML, CSS, Dart, Python, C++.
- **Frameworks & Libraries:** React.js, TailwindCSS, Vite, Flutter.
- **Tools & Platforms:** Android Studio, VS Code, Git, GitHub, Vercel, Hugging Face, Jira.
- **Design & Productivity:** Figma, Canva, Microsoft Office (Excel, Word).
- **Core Competencies:** Frontend Web Development, Mobile Application Development, UI/UX Design.

IT & ACADEMIC PROJECT

SIGAP.AI (Top 6 National Finalist at Arkavidia 10.0 Hackathon) | [\[Repository\]](#) Dec 2025 – Feb 2026

- *Frontend Developer*
- Spearheaded the frontend development of a predictive traffic management system using React.js, Vite, and TailwindCSS, successfully securing a Top 6 position out of numerous competing teams nationally.
- Designed and built interactive dashboard components, including live camera feeds, AI prediction timelines, and dynamic maps to visually interpret real-time traffic data and AI-driven recommendations.
- Successfully integrated backend machine learning endpoints and third-party services (BMKG API) to ensure seamless data flow, robust state management, and an intuitive user experience.

Flomart (1st Place National Winner at ISO FEST 2025 UI/UX Design) | [\[Figma\]](#) Dec 2025 – Jan 2026

- *UI/UX Designer*
- Secured the 1st Place position at the national level out of numerous participants by designing an innovative and user-centric digital product interface.
- Spearheaded the responsive design strategy, successfully transforming and optimizing complex desktop layouts into seamless, highly intuitive mobile experiences.
- Utilized Figma to create high-fidelity prototypes and maintain a consistent design system that met rigorous competition judging criteria.

SapuBumi (TECHSOFT 2026 National Web Design Competition) | [\[Repository\]](#) Mar 2026 – Apr 2026

- *Frontend Web Developer*
- Developed an interactive and responsive web platform focused on environmental sustainability, featuring a real-time AI-based waste detection scanner.
- Built a dynamic user interface using React.js and Vite, implementing modern web design principles to ensure a highly engaging and seamless user experience.
- Architected and managed the deployment strategy by hosting the backend machine learning model on Hugging Face and deploying the frontend on Vercel to optimize global performance.

Kopiloka (IPMHEN Competition Project) | [\[Repository\]](#) Nov 2025 – Dec 2025

- *Frontend Web Developer*
- Engineered an AI-integrated e-commerce platform tailored for local coffee products using Next.js, TypeScript, and TailwindCSS for a national competition.
- Developed comprehensive marketplace features, including dynamic product catalogs, cart management, checkout processes, and a dedicated seller dashboard, utilizing React Context API for robust state management.
- Successfully integrated an AI chatbot assistant to provide personalized coffee recommendations, significantly enhancing user engagement and the overall shopping experience.

E-Health Surabaya (Academic Final Project) | [Repository](#)

Nov 2025

- *Frontend Web Developer*
- Developed a modern, responsive public healthcare web application using React.js, TypeScript, Vite, and Tailwind CSS for a university final project.
- Engineered core digital healthcare features including interactive health facility directories, online patient registration forms, schedule management, and queue tracking interfaces.
- Implemented an accessible and highly intuitive user interface utilizing Radix UI components, streamlining complex public health administrative processes for end-users.

Fifteenth Web Platform (Personal Project) | [Repository](#)

Dec 2025

- *Frontend Web Developer*
- Independently designed and developed a modern, responsive web application for a food and beverage business utilizing Next.js, React, and TypeScript.
- Engineered dynamic user interfaces, including an interactive digital menu grid and a seamless RSVP booking system, to enhance customer engagement and operational efficiency.
- Optimized the application's performance and accessibility by implementing clean, modular code and reusable UI components.

ORGANIZATION & LEADERSHIP EXPERIENCE

BEM Faculty of Computer Science, UPN “Veteran” Jawa Timur - Surabaya, Indonesia

Jul 2024 – Dec 2025

External Staff

The Student Executive Board (BEM) of the Faculty of Computer Science is a student organization responsible for organizing faculty-level programs and strengthening collaboration with external stakeholders.

- Supported external relations initiatives and coordinated with internal teams and external partners in organizing FKMBIK 2024, one of the major programs of the Faculty of Computer Science.

Veteran Robotic Community, UPN “Veteran” Jawa Timur - Surabaya, Indonesia

May 2024 - Present

Member

Veteran Robotic is a student robotics community at UPN “Veteran” Jawa Timur focused on developing robotic systems and fostering students’ skills in robotics, programming, and engineering innovation.

- Contributed to robotics development activities by collaborating with team members on robot programming, testing, and system integration for autonomous operations and technical projects.

Syntax (Pelatihan Pemandu), Faculty of Computer Science, UPN “Veteran” Jawa Timur - Surabaya, Indonesia

Jul 2025 – Dec 2025

Member of Discipline Commission

Syntax is a student public speaking and guiding community within the Faculty of Computer Science that focuses on developing communication, presentation, and leadership skills among students.

- Served in the Discipline Commission by ensuring participant compliance with program rules and supporting the coordination and implementation of training activities during the Pelatihan Pemandu program.

FKBM-IK 2025 (National Program), UPN “Veteran” Jawa Timur - Surabaya, Indonesia

Aug 2025

Chief Executive

FKBM-IK 2025 is a national-scale program organized by the Faculty of Computer Science to connect Information Systems student associations across universities and promote collaboration, knowledge exchange, and cultural integration.

- Led the planning and execution of FKBM-IK 2025, coordinating committees and external participants to successfully organize a national forum for Information Systems students.

Quidditch Competition 2024, Faculty of Computer Science, UPN “Veteran” Jawa Timur - Surabaya, Indonesia

Dec 2024

Chief Executive

Quidditch Competition 2024 is a faculty-level sports event organized to promote student engagement, teamwork, and community building among students of the Faculty of Computer Science.

- Led the planning and execution of Quidditch Competition 2024 by coordinating the organizing committee, managing event logistics and schedules, and ensuring the successful implementation of a multi-day faculty sports competition.
- Supervised committee coordination and operational preparation to ensure the event ran smoothly and encouraged active student participation.

Company Visit 2025, Faculty of Computer Science, UPN “Veteran” Jawa Timur - Surabaya, Indonesia

Okt 2025

Head of Event Division

Company Visit 2025 is an academic program designed to provide students with industry exposure by visiting technology-related institutions and learning about real-world applications of IT and innovation.

- Led the event division in designing the program agenda and coordinating event operations for Company Visit 2025, facilitating industry exposure visits to PT Bursa Efek Indonesia and Juanda BMKG Meteorological Office.

Fasilkom Tech Bootcamp 2025, Faculty of Computer Science, UPN “Veteran” Jawa Timur - Surabaya, Indonesia Nov 2025

Event Division Staff

Fasilkom Tech Bootcamp 2025 is a technical training program focused on enhancing students’ practical skills in **website development with AI chatbot integration** through hands-on workshops and mentoring sessions.

- Supported the event division in organizing and executing Fasilkom Tech Bootcamp 2025, assisting in program coordination, session preparation, and event operations during the multi-session technical workshop.

MOSAIK 2025, Faculty of Computer Science, UPN “Veteran” Jawa Timur - Surabaya, Indonesia

Aug 2025

Senior Mentor

MOSAIK 2025 is the official faculty orientation program designed to introduce new students to the academic environment, campus culture, and student life within the Faculty of Computer Science.

- Served as a Senior Mentor, guiding and assisting new students throughout the MOSAIK 2025 orientation program while supporting the coordination of activities to ensure a smooth and engaging onboarding experience for participants.

Fasilkom Fest 2024, Faculty of Computer Science, UPN “Veteran” Jawa Timur - Surabaya, Indonesia

Sep 2024 – Dec 2024

Senior Mentor

Fasilkom Fest 2024 is a faculty event aimed at fostering student engagement, creativity, and collaboration through a series of academic and non-academic activities within the Faculty of Computer Science.

- Assisted the event division in planning and executing Fasilkom Fest 2024, supporting event preparation, activity coordination, and operational implementation throughout the program.

CERTIFICATIONS & TRAINING

RoboCamp 2024 Training Program — Veteran Robotic, UPN “Veteran” Jawa Timur

Feb 2024 – Mar 2024

- Completed intensive robotics training covering mechatronics, electronics, Arduino programming (C/C++ & MicroPython), microcontroller systems, and IoT project development, culminating in a team-based IoT prototype project.

HONORS & AWARDS

- | | |
|--|----------|
| ● 1st Place - UI/UX Competition, Informatics Sports & Festival 2025, Telkom University | Jan 2026 |
| ● 1st Place - Data Science Competition, GELAR RASA 2025 | Nov 2025 |
| ● 3rd Place — Infographic Competition, Gravity Festival 3.0 2025 | Nov 2025 |
| ● Speaker — Campus Expo 2025, SMAN 2 Sidoarjo | Jan 2025 |
